

Lucía Pardo Pérez

Robotics Engineer | ROS2 • Industrial Automation (Fairino, UR) • Flutter

Robotics Engineer specialized in industrial automation, robot programming, and software development for robotics platforms. Graduate in Industrial Informatics and Robotics (UPV) and currently working at Inlux Robotics in the Netherlands. Hands-on experience spans robot programming (Fairino, Universal Robots), ROS2 multi-robot systems, CAD design, and Flutter mobile development, with a track record of bridging hardware and software in real deployments.

SKILLS

Robotics & Automation

- Fairino robots
- Universal Robots (UR3e)
- Robot programming
- Gripper / EOAT integration
- ROS2 (Humble)
- CoppeliaSim

Software Development

- Python
- C++
- Flutter / Dart
- Android Studio
- Clean Architecture
- Git

Engineering Tools

- Onshape (CAD)
- 3D Printing / Prototyping
- CNC Machining
- PLC Siemens (TIA Portal)
- Microcontrollers

LANGUAGES

Spanish — Native

Catalan — Native

English — B2 (Cambridge)

CERTIFICATIONS

Cambridge English B2 (2024)

Veilige werkomgeving NL (2026)

HACCP & Allergenen NL (2026)

Developing Agentic Systems in GitHub, Parts 1 & 2 — Microsoft (Sept 2026)

Gennera 5UCV —

Entrepreneurship & Innovation Program, UPV (Jul 2025)

INTERESTS

CrossFit, Hyrox, tennis, padel, skiing

WORK EXPERIENCE

Robotics Engineer — Inlux Robotics

Jun 2026 – Present

Delft, Netherlands • On-site

- Provide technical support for clients, resolving issues on industrial robot installations on-site and remotely.
- Author operating and troubleshooting manuals for robot products and tooling.
- Test and validate new robot models and end-of-arm tooling (grippers) before release.
- Develop control software for robot programming and integration tasks.
- Work daily with Fairino and Universal Robots platforms, plus grippers and EOAT.

Mathematics Tutor — Academia PasAr

Sept 2022 – Nov 2024

Godella, Valencia

- Delivered personalized lessons for secondary and high-school students.
- Adjusted teaching methods to different learning styles to support academic progress.

Sales Assistant — Fashion Retail

- Managed stock, fitting rooms, and daily store organization.

Restaurant Service Assistant

- Provided customer service in a fast-paced restaurant environment.

KEY PROJECTS

UR3e Pick & Place Automation (custom 3D-printed gripper + machined mounting bracket) • Multi-Robot ROS2 Simulation (CoppeliaSim, namespaced coordination) • "Through the Door" AR Accessibility App (Flutter).

Full technical breakdown, demo videos, and CAD files at luciapp20.github.io

IoT Industrial Security System — Bachelor's Thesis

2026

Designed a low-cost IoT-based security monitoring system for industrial environments, integrating embedded hardware with automation middleware and a mobile interface.

- Built around ESP32-S3 microcontrollers for sensing and edge connectivity.
- Used Node-RED for automation, data flow orchestration, and integration logic.
- Developed a companion Flutter app for monitoring and management.

Tools: ESP32-S3, Node-RED, Flutter, IoT

EDUCATION

Bachelor's Degree in Industrial Informatics and Robotics 2022 – 2026
Universitat Politècnica de València (UPV), Spain • Graduated September 2026
• GPA 8/10

Focus on hardware-software integration, control systems, and robotics platforms. Honors: Matrícula de Honor (10/10) in Data Center IT Infrastructure; Matrícula de Honor (9.5/10) in Industrial Networks.

Professional Music Studies — Clarinet (4th Year) Sept 2018 – Jul 2022
Conservatorio Profesional de Música Pintor Pinazo, Spain

INTERNATIONAL EXPERIENCE

Erasmus+ Exchange Semester Feb – Jul 2026
Amsterdam University of Applied Sciences (HvA), Netherlands

Completed final exchange semester developing the "Through the Door" AR accessibility app and coursework in mobile and robotics engineering.

Erasmus+ BIP "DigHuman" — 1st Place, Best Project Award Mar – Jul 2026

Universidade do Porto, Portugal

Collaborated with teams from UPV, Universidade do Porto, and Università degli Studi di Salerno on Design Thinking, digital storytelling, and Generative AI; awarded Best Project among all participating teams.

Erasmus+ Program Mar 2018
Croatia

VOLUNTEERING

Support in elderly care and food distribution.
